Construction at Sugarloaf Mountain Natural Area

Construction of a new parking lot has begun at Marquette County's Sugarloaf Mountain Natural Area. The new parking lot is located south of the existing lot. During the first phase of construction, the "South Lot" will be developed. In August, the second phase of the project will involve lane closures along County Road 550. The third phase of the project will be improvements to the (existing) North Lot parking area.

The County Road 550 recreation corridor is experiencing a large volume of visitor and truck traffic. Marquette County asks that all visitors and motorists be alert and safe while traveling through this work zone. Please watch out for pedestrians and expect to experience travel delays during construction.

The estimated end date to this project is mid-September.
